REPORT

A Review of the WAZA/IZE Survey

Ву

Laura Penn, Ph.D.

January 2, 2012

The following report is a summary of the results of a survey conducted for a selection of WAZA/IZE institutions. The objective of the survey was to determine whether and to what extent institutions were using biodiversity-related educational materials. The survey questions are summarized by the following simplified questions:

- I. Who is creating materials?
- II. What materials currently exist?
- III. Where are the materials?
- IV. What do institutions want?
- V. What are the most pressing issues?
- VI. What partnerships exist?
- VII. What evaluations exist?
- VIII. What institutions have produced materials for conservation projects?
- IX. Additional comments or ideas?
- X. Contact details
- XI. Discussion

I. Who is creating materials?

Institutions involved in producing biodiversity-related educational materials

N = 48 (institutions named)

- The results reflect a broad distribution across the regions. The geographic distribution of institutions named is as follows:
 - 1. North America (14 institutions named)
 - 2. Europe (10)
 - 3. Asia (10)
 - 4. Central and South America (9)
 - 5. Africa (5)
- Within North America, WCS's institutions (Bronx, Central Park, Queens and Prospect Park Zoos, and the NY Aquarium) have the greatest representation.

Within Europe, institutions associated with Frankfurt are the majority. In Asia, institutions in Japan and India have significant representation. In Central and South America, institutions in Brazil are well represented and in Africa, South African institutions lead.

 Below is a list of named institutions, their regions and their corresponding contact details:

North America

Institution	Contact
Canadian Association of Zoos and Aquariums	Bill Peters
Disney's Animal Kingdom	Kathy Lehnhardt
Field Museum	Beth Crownover
Lincoln Park Zoo	Leah Melber
National Park Service	Not given
Project Wild	
(Council for Environmental Education)	Info@councilforee.org
Sea World and Busch Gardens	William Street
Southwest Florida Water Management District	Not given
WCS Zoos (Bronx, Central Park, Prospect Park,	
Queens, and the NY Aquarium)	Jim Breheny
WWF	1250 24 th Street, NW, Washington, DC 20037
Zoo de Granby	Patrick Pare

Europe

Institution	Contact
Bio Frankfurt	<u>krutschinna@biofrankfurt.de</u>
Budapest Zoo and Botanical Garden	Gabor Simonyi, simonyi@zoobudapest.com
Kolner Zoo	Ruth Dieckmann
Parken Zoo, Eskilstuna, Sweden	Helena Olsson
Frankfurt Zoological Society	keiser@zgf.de
Goethe-Universitat Frankfurt-Biologiedidaktik	dierkes@bio.uni-frankfurt.de

Jaszbereny Zoo	Peter Fercsik
Szeged Zoo	Lajos Endredi
Verband deutschsprachiger Zoopadagogen (VZP)	Lothar Philips
Zoologische Gesellschaft Frankfurt-	keiser@zgf.de
Naturschutzbotschafter	

Asia

Institution	Contact
Centre for Environmental Education, CEE	Kartikeya Sarabhai
Central Zoo Authority, India	Not given
Community Science Center	Dilip Sircar
Hiroshima City Asa Zoological Park	Not given
Ministry of Environment of Japan	Not given

Tokyo Zoological Park Society	Not given
Ueno Zoological Gardens	Hidemasa Hori
Yokohama Zoological Garden	Kasumi Nagakura
Zoo Outreach Organization, ZOO	B.A. Daniel

Central and South America

Institution	Contact
Africam Safari Puebla	Carmen Linares
Brasilia Zoo – Brasil	Belarmino Filho
Chiba Zoological Park	Hiroyuki Takahashi
Fundacion Zoologica de Cali	Igino Mercury
Fundacion Zoologico Santacruz Fundacao Parque Zoologio CD Sao Paulo - Brasil	Sandra Gomez and Adauto Nunes
Paulina Zoo – Sao Paulo – Brasil	Marcelo Telles
Zoologico Matecafia de Pereira	Sandra Milena Correa Montoya
Zoologico de Barranquila	Not given

Africa

Institution	Contact
Johannesburg Zoo	Louise Gordon
National Zoo	Ulrich Oberprieler
South African Association for Marine Biological Research	Jone Porter
Two Oceans Aquarium	Russel Stevens
uShaka Marine World	Jone Porter

II. What materials currently exist?

Available biodiversity-related educational materials

N = 28

- The five biodiversity-related educational materials most found are:
 - 1. Activities such as games and puzzles (79 %*)
 - 2. Posters, natural history objects, and photos (71 % each)
 - 3. Videos (61 %)
 - 4. Workbooks and brochures (57 % each)
 - 5. Science equipment (43 %)
 - * Response percent out of the total number of responses
- The five educational materials <u>least</u> found are:
 - 1. iPad wildlife programs (7 %)
 - 2. Music/songs and masks (14 % each)
 - 3. Computer wildlife programs (18 %)
 - 4. Scripts for dramas (25 %)
 - 5. Costumes (32 %)

III. Where are the materials?

The location of biodiversity-related educational materials

N = 22

- The majority (50 % of responses) of the institutions in the survey hold hardcopies of their educational materials in their education departments.
- A further 23 % of responding institutions have their materials available online.
- 14 % have their educational materials available both as hardcopies and online.
- 14 % deliver their educational materials only after participants have completed special workshops or training.

IV. What do institutions want?

Educational materials wish list

N = 30

- The five biodiversity-related educational materials <u>most</u> wished for are:
 - 1. Videos (60 %)
 - 2. iPad wildlife programs (53 %)
 - 3. Activities such as games and puzzles (40 %)
 - 4. Computer wildlife programs (40 %)
 - 5. Photos (33 %)
- The five biodiversity-related education materials <u>least</u> wished for are:
 - 1. Data collection sheets (10 %)
 - 2. Table displays (10 %)
 - 3. Brochures (13 %)
 - 4. Workbooks (17 %)

5. Masks (17 %)

V. What are the most pressing issues?

Gaps in zoo/aquarium biodiversity education

N = 28

- 79 % of respondents felt that there were gaps in zoo/aquarium biodiversity education that were pressing and urgent to fill.
- Of the 28 respondents, 18 provided descriptions of the needs. The three most frequently mentioned were:
 - 1. The need to evaluate and monitor different programs (4 responses)
 - The need for financial and physical resources to implement programs
 (2 responses)
 - 3. The need for more networking between zoos (2 responses)
- Other needs worth considering were:
 - The need for a centralized collection of materials such as lesson plans, photos, and videos
 - 2. Resources to help define the term "biodiversity"
 - 3. The opportunity to use technology more effectively
 - 4. High-quality videos between 10-15 minutes long, detailing biodiversity-related issues

VI. What partnerships exist?

Partnership reference list

N = 17

North America

Institution	Description	Runtime	Contact
Canadian Association of Zoos and Aquariums	Not given	Since 2010	Bill Peters

Canadian Association of Zoos and Aquariums	A unique theme about Canadian biodiversity every year	Not given	Greg Tarry
CBOT Chicago Zoo with Santacruz Zoo of Colombia	Amphibian conservation program	Two years	Alejandro Grajal
Disney's Animal Kingdom with Proyecto Titi in Colombia	Supports scientific and educational activities in Columbia	Ten years	Anne Savage and Kathy Lehnhardt
Disney's Animal Kingdom with PASA in Africa	Community conservation projects for primates	Seven years	Anne Savage and Kathy Lehnhardt
Disney's Animal Kingdom with Save the Elephants in Kenya	Education programs that enhance the scientific work with the species	Six months	Anne Savage and Kathy Lehnhardt
WCS with Wildlife Reserves Singapore	MoU, staff and information exchanges	Ongoing	Jim Breheny

Europe

Institution	Description	Runtime	Contact
Senckenbergmuseum with Palmengarten	Guided tours about biodiversity showing differing points of view between the natural history museum and the botanical garden	Since 2008	Not given
Tiergarten Schonbrunn with Nationalpark Kiskunsag	Hungarian meadow viper life project (www.rakosivipera.hu/en/)	Since 2009	Anton Weissenbacher

Asia

Institution	Description	Runtime	Contact
Central Zoo Authority, India with	Long term and short term	More than five years	Mr. Bonal and Kartikeya Sarabhai

Ministry of Environment and Forests, India			
Isabela University with Monte Negro Crocodile Reserve, Philippines	Zoos together with NGO's are promoting biodiversity as a way to save the endangered Philippine crocodile	Five years	Not given
Tokyo University of Agriculture with Azabu University	Partnership between universities and zoos	One year	Hiroshi Ogawa
Wildlife Research Center of Kyoto University	Not given	Not given	Not given

Central and South America

Institution	Description	Runtime	Contact
Africam Safari Puebla with South America	The design and production of educational materials related to "traffic"	One year	Not given
Fundacion Proyecto Titi	Columbian zoos support conservation- related portion of the project's educational activities	Three years	Tosamira Guillen
Sao Paulo City Municipality with Aracoiaba Da Serra Municipality, Sao Paulo State	Agreement between attending school students and professors	Two years	Municipality Secretariat of the Environment

Africa

Institution	Description	Runtime	Contact
WWF SA South African Sustainable Seafood Initiative with SAAMBR	Part of a national program, each partner brings specific expertise and audience	Since 2004	Janine Basson and Jone Porter

VII. What evaluations exist?

Prevalence of evaluations, their content, and location

N = 22

- 46 % of respondents had evaluated their partnership conservation programs.
- Of the respondents who had answered in the affirmative, 9 provided details of what had been measured:
 - 1. Number of participants (89 %)
 - 2. Change in knowledge (67 %)
 - 3. Change in attitudes (56 %)
 - 4. Number of conservation actions presented in program (44 %)
- A further five of the respondents provided details on the evaluation results and their locations:
- 1. www.ceeindia.org, www.cza.nic.in
- 2. www.wwf.org.za/sassi, jbasson@wwf.org.za
- 3. www.cvped.org/croc achievements.php
- 4. CAZA
- 5. Kathy Lehnhardt (PASA project proposal), Anne Savage (Proyecto Titi evaluation)

VIII. What institutions have produced materials for conservation projects?

Knowledge of other biodiversity-related educational materials and contact details N=25

- 56 % of respondents were aware of other zoos/aquariums that had produced educational materials.
- The education materials most produced were (N = 12):

- 1. Brochures (67 %)
- 2. Posters (58 %)
- 3. Workbooks and photos (42 % each)
- 4. Data collection sheets and books/field guides (17 % each)

• 12 institutions were named:

		Institution Implementing the	
Institution	Contact	Conservation	Conservation
		Project	Project Contact
ACOPAZOA	Carolina Falla	Zoos and aquariums of Colombia	Not given
Assam State Zoo / Botanical Garden, India	Dr. Mohanta	Assam State Zoo	Flora and Faunal Biodiversity and Conservation

Zoologico de Cali	Igino Mercury	Zoologico de Cali	Carlos Andres Galvis

IX. Additional comments or ideas?

N = 4

- Respondents suggested:
 - 1. Marketing and benchmarking educational programs
 - 2. Fundraising and/or making programs self-sufficient
 - 3. Creating a cadre of zoo educators and volunteers
 - 4. Addressing sustainability issues in zoos
 - 5. Establishing more links within the zoo and aquarium community

XI. Discussion

Who, What, Where, and How?

The survey suggests that there is a broad range of activity surrounding the use and production of biodiversity-related educational materials. All of the geographic regions appear to be involved, most notably, North America, Europe, and Asia. Of the educational materials in use, the most prevalent seem to be activities such as games and puzzles. Posters, natural history objects, and photographs also appear to be widely used. All of these materials are the staples of any zoo/aquarium education department. They are frequently used to educate, engage, and inspire their audiences.

Survey participants reported that the least used materials are iPad wildlife programs and materials related to the performing arts such as costumes, scripts, and music. Both of these categories are expensive and highly specialized, demanding software expertise and financial and physical resources, which may be difficult to come by.

The majority of survey participants indicate that their biodiversity-related educational materials are available onsite as hardcopies. Very few institutions appear to be using technology to share and distribute resources online, which is surprising in this day and age.

Survey respondents suggest that videos and iPad wildlife programs are the two biggest items on their wish lists. As there is no shortage of natural history documentaries and educational videos available for purchase, it is interesting to see videos listed as the top-ranking item among institutions. Further research should examine what types of videos institutions are referring to. Furthermore, the broad interest in iPad wildlife programs demands attention.

The least wished for items by survey participants, were data collection sheets and table displays, materials that most zoo/aquarium education departments are likely to already have, as they represent the tried and true staples of environmental education.

The majority of survey participants believed that there were gaps in zoo and aquarium biodiversity education that were pressing and urgent. Of the respondents who gave insights into what these were, several suggested that there should be more evaluation and monitoring of educational programs. Others felt that there was a basic lack of financial and physical resources available to implement programs. A handful of survey participants also believed that there should be more networking between zoos and aquariums. Some participants suggested practical solutions to needs, such as designing educational resources to help define the term "biodiversity". One of the most useful suggestions was the idea to develop a centralized collection of educational materials such as lesson plans, photos, and videos. If such a collection were developed, it would help education departments to maximize their potential. An online system of some sort, for example, could help educators share a wide range of resources from lesson plans, to computer wildlife programs, to best practice advice. Such a system could also help to make education

departments more efficient because they would not have to "reinvent the wheel" each time they develop new material. •

Partnerships, Evaluations, and Other Resources

The current survey found that there was a considerable selection of partnerships across the world, reflecting an active and engaged community of educators and conservation professionals. The list of partnerships and contact details is a useful resource.

Furthermore, the current survey revealed that a considerable number of institutions had performed evaluations on their educational programs, however, the quality and extent of the evaluations was difficult to determine based on the results. Further research should examine these elements in more depth.

Finally, survey participants provided a useful list of other institutions involved in producing biodiversity-related educational materials. This list may be helpful in the future.

15

[•] The idea of an online system to collect educational materials is not specifically given in the survey. The suggestion is given by Laura Penn.

WAZA / IZE Decade on Biodiversity Survey

1. Can you name any institution that has produced educational materials specifically about biodiversity in your region? (where the term biodiversity was used)

	Response Percent	Response Count
Name of Institution 1	96.2%	25
Name of Contact 1	88.5%	23
Name of Institution 2	57.7%	15
Name of Contact 2	53.8%	14
Name of Institution 3	46.2%	12
Name of Contact 3	30.8%	8
Additional information	19.2%	5

Page 1, Q3. Where can the materials you have selected in question 2 be found?		
25	Many of the materials we use can be found on the IZE website. We try to post as much as possible.	Nov 28, 2011 9:12 PM

Page 1, Q4. What educational materials are on your "wish list" of ones you'd like to have that would enhance your teaching about biodiversity?		
1	Interactive exhibits, multimedia techniques, traditional and use of performing arts, local culture and indigenous knowledge	Dec 20, 2011 6:50 PM
2	Cell phone based internet activities	Dec 20, 2011 12:13 PM
3	The educational program about preservation breeding of a Tsushima leopard catPrionailurus bengalensis euptilurus.	Dec 18, 2011 3:12 AM
4	Travel programs	Dec 12, 2011 4:14 PM
5	iPhone applications	Dec 9, 2011 12:10 AM
6	we have just recieved \$50K to create an ipad based app that will support students in conducting biodiversity studies, syntesize their data and send it back to teh classroom for further analysis this has been a key desire for some time.	Dec 5, 2011 4:54 PM
7	jkjh	Dec 5, 2011 9:14 AM
8	Disney's Animal Kingdom has just begun using Ipads to connect children to our live animals in the Park. This is a great use of technology, which the children love and nature.	Nov 28, 2011 9:46 PM
9	iPads are a new technology that can link live animals in our zoos and aquariums to technology in a positive way. iPads would be a great addition to most any zoo or aquarium.	Nov 28, 2011 9:12 PM

age 1, ill?	Q5. Do you see any gaps in zoos and aquarium biodiversity education that are	pressing and urgent to
1	Locale specificity of programmes Specific Programmes addressing Adults and Youth Evaluation Techniques Feedback and Monitoring	Dec 20, 2011 6:50 PI
2	Depending on the region or the zoological institution there are certainly gaps, many times due to the lack of resources.	Dec 20, 2011 2:55 PI
3	computer activities info on foodwebs, fishing/harvesting down the food chain and shifting baselines - historical images	Dec 20, 2011 12:13 P
4	Not sure how to answer this. We incporate these concepts all the time. We don't necessarily use "biodiversity" and not sure how much we will increase use of that term.	Dec 16, 2011 5:59 PI
5	Yes, we fail to describe our role in the web of life and that we will be affected if biodiversity declines.	Dec 16, 2011 9:17 Al
6	more networking between zoos	Dec 14, 2011 3:30 PI
7	more networking between zoos	Dec 14, 2011 12:35 P
8	There are plenty of science centers and facilities that take youth to see backyard/native biodiversity. There are many zoological facilities that present biodiversity from other countries. However, there are few that find ways to expose youth to biodiversity outside of their immediate surroundings. Zoos need to do a better job connecting their exhibits and the opportunity for people to directly connect with those habitats and wildlife.	Dec 12, 2011 4:14 PI
9	I think that educational programs need a more targeted approach to the consequences it has for close people the loss of biodiversity, in addition to the everyday actions that can be done to help.	Dec 10, 2011 7:24 P
10	Lack of materials and budget for this area.	Dec 9, 2011 8:52 PM
11	Regional practical workshops for Zoo educators in South Africa, access to international resources (IZE website is great) such as good quality images to use in programmes free of charge, short videos - national geographic is normally 60 minutes - too long for programmes - need good quality videos that illustrate certain aspects well in 10 - 15 minutes	Dec 9, 2011 5:32 AM
12	conveying the significance of the problem to the general, voting public	Dec 9, 2011 12:10 A
13	We haven't been successful at drawing attention to biodiversity themed activities because people don't know what it is. More resources to define it in simple terms to families would be helpful.	Dec 8, 2011 5:37 PM
14	It is necessary to evaluate the real impact of this material, to know if it really educate people about biodiversity.	Dec 7, 2011 6:10 PM
15	I think there is great opportunity for more authentic and effective use and intergration of technology.	Dec 5, 2011 4:54 PM
16	hjkhjk	Dec 5, 2011 9:14 AM
17	Although many institutions conduct program about wildlife and wild places, few are actually evaluated. The zoo industry needs more evaluation of it's education programming to demonstrate the conservation impact of our programs.	Nov 28, 2011 9:46 P

Page 1, Q5. Do you see any gaps in zoos and aquarium biodiversity education that are pressing and urgent to fill?		
18	Although most of us do many school, visitor and members biodiversity education programming, few of us evaluate our programs and materials. This is sorely needed in order to show conservation impact (awareness and action.)	Nov 28, 2011 9:12 PM
19	a centralised collection of material (text) and pictures etc. would be good to have.	Nov 28, 2011 10:18 AM

Page 1, Q6. Please name any partnership that has a project focusing on biodiversity education between zoos and aquariums in different regions?

	Name of institution in Region 1:	
1	Central Zoo Authority, INDIA	Dec 20, 2011 6:50 PM
2	WWF SA South African Sustainable Seafood Initiative	Dec 20, 2011 12:13 PM
3	We do not announce you. However, we cooperate with the Wildlife research centerof Kyoto University, and are doing education and research activities.	Dec 18, 2011 3:12 AM
4	Isabela University	Dec 16, 2011 9:17 AM
